HealthTrust is a group purchasing organization (GPO) with a membership reach that represents 25% of US hospitals and 33% of all beds. This reach shines a light on the amount of real estate, construction and facility needs by the membership. HealthTrust Connect is a premier event where HealthTrust members and their teams come together to connect, learn, and network at our largest gathering exclusively for Construction, Facilities and Energy. We invite and encourage trade partners, contracted suppliers, HealthTrust employees and more to join us as we work together to better support these health systems.

Sunday, November 2

6:00 pm - 8:00 pm
